## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Information Disclosure Statement***

3. The listing of references in the specification (French model 98 7300 published under numbers 535 807 to 535 814 (L'Oréal), on page 2, lines 18-19) is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.
4. A supplemental copy of the form 1449 submitted 1/13/2003 is being supplied with all references initialed and considered.

### ***Claim Objections***

5. Claims 2-4 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim must refer to preceding claims in the alternative only. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

*Claim Rejections - 35 USC § 112*

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

8. A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949).

In the present instance, claim 1 recites the broad recitation "over a distance less than D" in lines 10-11, and the claim also recites "preferably less than D/3" in line 11 which is the narrower statement of the range/limitation.

In the present instance, claim 10 recites the broad recitation "a height less than D" in line 10, and the claim also recites "preferably less than D/3" in line 10 which is the narrower statement of the range/limitation.

9. In light of the ambiguity discussed above in paragraph 8, the claims have been interpreted such that the narrower range is not a required element or limitation, and the claims will read on any reference that discloses the broad range of less than D.

### *Claim Rejections - 35 USC § 102*

10. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

11. Claims 1 and 7 are rejected under 35 U.S.C. 102(e) as being anticipated by Herr et al. (US 6,371,316).

Herr discloses a Tube (90) fitted with a head (20) intended to fix capping (60), and with a cylindrical or prismatic skirt (23) having an orthogonal section of any shape whose largest inscribed circle has a diameter D, characterized in that the head is provided with a circular cylindrical wall (37) extending towards the inside of the tube, surrounding an opening (unlabelled, Figure 3) concentric to said inscribed circle and having a diameter typically lying between  $0.5 \cdot D$  and  $0.9 \cdot D$  (Figure 3), and in that it essentially occupies the inner volume of the end of skirt (2) over a distance of less than D.

Herr also discloses, fixed upon the lower part of the head, a jutting part (37) oriented towards the inside of the tube.

*Allowable Subject Matter*

12. Claims 5, 6, and 8-15 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

*Conclusion*

13. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
